# OUR CLIENTS

## FACILITIES

Our corporate head office is located in Manama at Kingdom of Bahrain.

We have our production facility in Alba Industrial Area, Bahrain with a fully-fledged Professional team (production, quality and sales).

Our factory has a widespread infrastructure in 8000 sq. meters in the industrialized part of Bahrain. In the manufacturing industry it is commonly stated that “Sufficiency drives productivity.” Improved productivity is a source of greater revenues, employment opportunities and technological advances.

Our infrastructure and its sufficiency have always a pragmatic interpretation. This is the most common interpretation of the term many different processes and concepts have evolved to improve productivity, BRC's sufficiency is well justified by its facility encompassing all its operational divisions synchronized together.

Different divisions of Purchase, Sales, Production, Quality, Administration, Stores, Maintenance and Logistics work in tandem to increase the performance and productivity. All the divisions are allied through a centralized technological platform.
